February 28, 2026

Ewing Morris & Co. is a value driven investment firm established in 2011. The firm manages equity and credit strategies with a focus on North American small and mid-cap companies. The firm is employee-owned, and partners are invested alongside clients, accounting for around 10% of the firm's invested capital. The firm manages investments for individuals as well as charitable organizations, institutions, and corporations.

STRATEGY

Offensive Playbook – The Offensive Playbook involves investing in units of the Ewing Morris Opportunities Fund LP and the Ewing Morris Small Cap Fund LP which applies a private equity mindset to public company investing. The Funds are geared towards capital preservation and target a net return to LPs of 10% per annum over time, with lower volatility than the broad-based North American equity markets.

Defensive Playbook – The Defensive Playbook is designed to preserve capital for investors through all market environments, particularly during periods of rising interest rates. This is achieved by investing into the Ewing Morris Flexible Fixed Income Fund LP, which has historically had lower volatility and low correlation with general markets and targets 5-7% net returns per annum over time.

Neutral Zone Playbook – The Neutral Zone Playbook is accessed via the Broadview Dark Horse LP, a low net exposure North American long-short fund focused on small cap companies. The strategy is capital structure agnostic and seeks "equity-like" returns. The investment approach is to look for structural, nuanced or temporal inefficiencies, conduct deep research and pursue company involvement as a back-up plan. Investment opportunities are reviewed through a private market value lens.
